# In Remembrance of Professor Calestous Juma

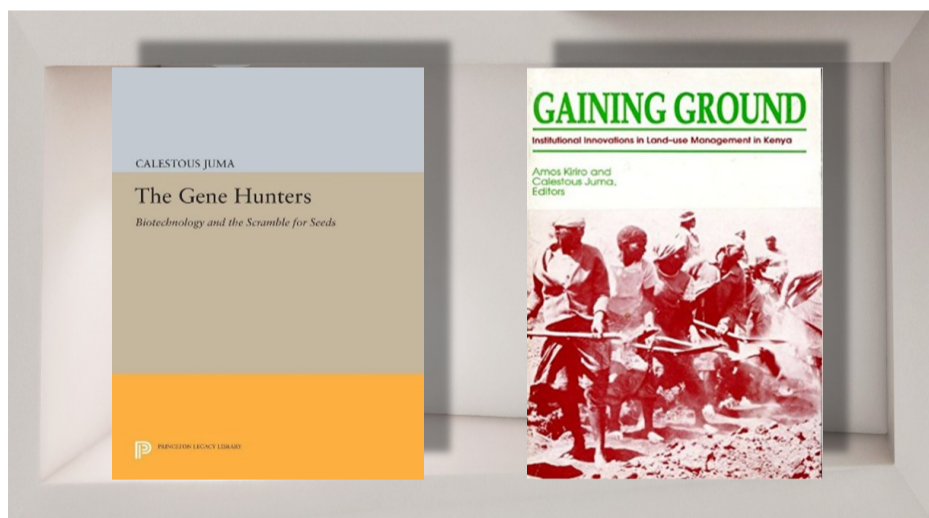

June 19, 1953 — December 15, 2017

*Prof. Calestous Juma was an internationally recognized authority, a luminary African scholar, who championed the cause of innovation and technology in transforming African countries, and whose books and papers about the environment, biotechnology, agricultural innovation for development & food security, education, artificial intelligence, cloning and the politics of land in Africa made him a towering figure both in the continent and across the world.*

*He was Professor of the Practice of International Development and Director of the Science, Technology, and Globalization Project at Belfer Center for Science and International Affairs. He also directed Agricultural Innovation Policy in Africa and Health and Innovation Policy in Africa centers. He served as Faculty Chair of the Innovation for Economic Development at Harvard Kennedy School, Edwards Mason Fellows Program, and Technology, Innovation and Entrepreneurship in Africa executive Programs. The late professor has also authored groundbreaking books in the above noted disciplines.*

*In recognition of his works and contributions, Prof. Juma has won several international awards and has been elected to several scientific academies.*

## CHECK THIS OUT!

KLSS is pleased to launch a Research Guide in honor of Africa's leading innovation scholar, Prof. Calestous Juma. The Guide brings together all his works and contributions to Africa and the world in one window.
